LWB+CTB	龍運/城巴	Joint Operation of LWB & CTB	TRAM	電車	Tram

Delta change

Field	Description
ROUTE_ID	Route ID
CHANGE	[Add] The route record is new in current version of data file [Update] The route record has been updated in current version of data file [Delete] The route record was previously available but has been removed in current version of data file

Delta changes are compiled in csv format

Table for PT Route Stop

Field	Data Type	Description
ROUTE_ID	Integer	Route ID
ROUTE_SEQ	Integer	1 = outbound or circular route; 2 = inbound
STOP_SEQ	Integer	Stop sequence of a route
STOP_ID	Integer	Stop ID
STOP_NAMEEC	String	Stop name in Traditional Chinese
STOP_NAMES	String	Stop name in Simplified Chinese
STOP_NAMEEE	String	Stop name in English
LAST_UPDATE_DATE	Datetime	Date and time of last update

Remark

GMB route includes the first and last stop (terminus) only.

Delta change

Field	Description
ROUTE_ID	Route ID
ROUTE_SEQ	1 = outbound or circular route; 2 = inbound
CHANGE	[Add] The route record is new in current version of data file [Update] The route record has been updated in current version of data file [Delete] The route record was previously available but has been removed in current version of data file

Delta changes are compiled in csv format

On each delta change record, Route ID with its Route Sequence (or known as Bound) indicates changes occurred in all of its stops

Table for Stop

Field	Data Type	Description
STOP_ID	Integer	Stop ID
STOP_TYPE	Integer	1=bus, 2=GMB, 5=tram, 6=peak tram, 8=ferry
X	Integer	x-coordinate of stop location *
Y	Integer	y-coordinate of stop location *
LAST_UPDATE_DATE	Datetime	Date and time of last update

* Stop coordinates are provided in Hong Kong 1980 Grid system
(reference: https://www.geodetic.gov.hk/tc/gi/grid_index.htm)

Delta change

Field	Description
STOP_ID	Stop ID
CHANGE	[Add] The route record is new in current version of data file [Update] The route record has been updated in current version of data file [Delete] The route record was previously available but has been removed in current version of data file

Delta changes are compiled in csv format

Table for Fare

Field	Data Type	Description
ROUTE_ID	Integer	Route ID
ROUTE_SEQ	Integer	1 = inbound or circular route; 2 = outbound
DAY_CODE	Integer	31 = Fare applicable to Mondays to Fridays only (except Public Holidays and School Holidays) 63 = Fare applicable to Mondays to Saturdays only (except Public Holidays and School Holidays) 266 = Fare applicable to Tuesdays and Thursdays only (except Public Holidays) 271 = Fare applicable to Mondays to Thursdays only (except Public Holidays) 272 = Fare applicable to Fridays only (except Public Holidays) 287 = Fare applicable to Mondays to Fridays only (except Public Holidays) 288 = Fare applicable to Saturdays only (except Public Holidays) 319 = Fare applicable to Mondays to Saturdays only (except Public Holidays) 320 = Fare applicable to Sundays only (except Public Holidays) 415 = Fare applicable to Mondays to Fridays only 416 = Fare applicable to Saturdays and Public Holidays only 447 = Fare applicable to Mondays to Saturdays only 448 = Fare applicable to Sundays and Public Holidays only 480 = Fare applicable to Saturdays, Sundays and Public Holidays only 511 = Fare applicable to All Days
ON_SEQ	Integer	Stop sequence of pick-up stop
OFF_SEQ	Integer	Stop sequence of drop-off stop
PRICE	Numeric	Fare from pick-up stop to drop-off stop
LAST_UPDATE_DATE	Datetime	Date and time of last update

Fare is available to Bus, Ferry, Peak Tram and Tram routes only

Delta change

Field	Description
ROUTE_ID	Route ID
ROUTE_SEQ	1 = inbound or circular route; 2 = outbound
CHANGE	[Add] The route record is new in current version of data file [Update] The route record has been updated in current version of data file [Delete] The route record was previously available but has been removed in current version of data file

Delta changes are compiled in csv format

Table for Company Code

Field	Data Type	Description
COMPANY_CODE	String	Company / Operator code
COMPANY_NAMECN	String	Company / Operator name in Chinese
COMPANY_NAMES	String	Company / Operator name in Simplified Chinese
COMPANY_NAMEEE	String	Company / Operator name in English
DESCRIPTION	String	Description of company code, for reference
